

Bio-Oil®

Bio-Oil®

Bio-Oil® is a specialist skincare product that is recommended to help improve the appearance of scars, stretch marks and uneven skin tone. It is also recommended for ageing and dehydrated skin.

It contains the breakthrough ingredient PurCellin Oil™ which reduces the thickness of the formulation. This makes Bio-Oil® easily absorbed and helps ensure the targeted delivery of its key ingredients: Vitamins A and E, and the natural plant oils Calendula, Lavender, Rosemary and Chamomile.

Bio-Oil® is easily absorbed and non-greasy. It is hypoallergenic, contains no preservatives and is suitable for all skin types. It is formulated for use on the face and body.

Scars

Bio-Oil® helps improve the appearance of both new and old scars. It also helps reduce the discomfort associated with scarring including tight, dehydrated and flaky skin.

Apply Bio-Oil® to the scar twice daily, massaging gently with the fingertips in a circular motion until fully absorbed. Use for a minimum of 3 months. Do not use on broken skin.

Stretch marks

Bio-Oil® is formulated to keep the skin supple and moist thereby helping to reduce the possibility of stretch marks forming during periods of rapid change in body size, such as pregnancy, teenage growth spurts and weight gain.

Massage Bio-Oil® twice daily into the areas most susceptible to stretch marks.

During pregnancy, massage Bio-Oil® into the abdomen, hips, breasts, lower back and upper thighs twice daily from the first trimester until after birth.

To help improve the appearance of existing stretch marks, apply Bio-Oil® twice daily, massaging with the fingertips in a circular motion until fully absorbed. Use for a minimum of 3 months.

Uneven skin tone

Bio-Oil® helps improve the appearance of uneven skin tone.

Apply Bio-Oil® twice daily, massaging gently with the fingertips in a circular motion until fully absorbed. Use for a minimum of 3 months.

Ageing skin

Bio-Oil® helps smooth and tone ageing and wrinkled skin on both the face and body.

Apply Bio-Oil® twice daily, massaging gently with the fingertips in a circular motion until fully absorbed.

Dehydrated skin

Bio-Oil® helps replenish the skin's natural oils stripped away by factors such as extreme weather, water with high chemical content, frequent bathing and the drying effects of central heating or air conditioning.

Apply Bio-Oil® after bathing, showering, sun-tanning or swimming. Massage gently into the skin, paying particular attention to dry or chapped areas. Bio-Oil® is also ideal as a bath oil.
